

LEGAL NOTICES

ORDINANCE NO. 1  
UKIAH VALLEY SANITATION  
MENDOCINO COUNTY, CALIFORNIA  
AN ORDINANCE REGULATING  
THE USE OF PUBLIC SEWERS  
AND DRAINAGE SYSTEMS AND  
THE INSTALLATION, CONSTRUCTION  
AND CONNECTION OF  
BUILDING SEWERS, THE  
INSTALLATION OF SEWER LATERALS  
AND PUBLIC SEWER  
LATERALS, PROVIDING  
FOR EMPLOYMENT OF  
AGENTS AND DISTRICT INSPECTORS  
AND FIXING FEES FOR THE INSTALLATION  
AND CONNECTION OF  
BUILDING SEWERS, ESTABLISHING  
CHARGES FOR SUBDIVISIONS  
REGULATING THE DISCHARGE  
OF WASTES AND WASTEWATER  
SYSTEMS INTO THE PUBLIC  
SEWER SYSTEM AND PROVIDING  
PENALTIES FOR THE VIOLATION  
OF THE PROVISIONS  
THEREOF.

The Board of Directors of the Ukiah Valley Sanitation District, Mendocino County, California, does ordain as follows:

ARTICLE I  
DEFINITIONS

- Sec. 101. Additional Definitions. For the purpose of this Ordinance, additional terms shall have the meaning indicated in Chapter 1 of that certain Plumbing Code, entitled "Western Plumbing Officials Uniform Plumbing Code, 1938 Edition, adopted by the Western Plumbing Officials Association in September, 1937, copies of which are on file in the office of the District.
- Sec. 102. Applicant shall mean the person making application for a permit for a sewer or subsurface drainage and shall be the owner of premises to be served by the sewer for which a permit is requested or his authorized agent.
- Sec. 103. Board shall mean the Board of Directors of said District.
- Sec. 104. Building shall mean any structure used for human habitation or a place of business, recreation or other purpose containing sanitary facilities.
- Sec. 105. Building Sewer shall mean that portion of a sewer beginning at the plumbing or drainage outlet of any building or industrial facility and running to the property line.
- Sec. 106. City shall mean the City of Ukiah, California.
- Sec. 107. Combined Sewer shall mean a sewer receiving both surface runoff and sewage.
- Sec. 108. Contractor shall mean an individual, firm, corporation, partnership or association duly licensed by the State of California to perform the type of work to be done under the permit and possessing any other license required by local jurisdictions.
- Sec. 109. District shall mean the Ukiah Valley Sanitation District, Mendocino County, California.
- Sec. 110. Engineer shall mean the Engineer appointed by and acting for the Board, may be the City Engineer, and shall be a Registered Civil Engineer.
- Sec. 111. Garbage shall mean solid waste, including refuse, food, cooking and oil, and any other material, including storage and sale of produce.
- Sec. 112. Inspector shall mean the Inspector acting for the Board and may be a member of the Board, the Manager, the Engineer or any other employee of the City, pursuant to an agreement for the maintenance and operation of the system by the City.
- Sec. 113. Lateral Sewer shall mean that portion of a sewer lying within a public street connecting a building sewer to the main sewer.
- Sec. 114. Main Sewer shall mean a public sewer designed to accommodate more than one lateral sewer.
- Sec. 115. Manager shall mean the person or persons appointed by the Board to administer and enforce the rules and regulations of District.
- Sec. 116. Outside Sewer shall mean a sanitary sewer beyond the limits of the District not subject to the control or jurisdiction of District.
- Sec. 117. Permit shall mean any written authorization required pursuant to this or any other regulation of District for the installation of any sewer works.
- Sec. 118. Person shall mean any individual, firm, company, partnership, association and private or public or municipal corporations, and proprietors of America, the United States of America, the State of California, districts and all political subdivisions, governmental agencies and municipalities thereof.
- Sec. 119. Plumbing System shall mean all plumbing fixtures and traps, pipes, and all sanitary sewer pipes within a building and extending to the building sewer connection three (3) feet outside the building wall.
- Sec. 120. Public Sewer shall mean a sewer lying within a street and which is controlled by or under the jurisdiction of the District.
- Sec. 121. Sanitary Sewer shall mean a sewer which carries sewage and to which storm, surface and ground waters are not intentionally admitted.
- Sec. 122. Sewage shall mean a combination of water-carried wastes from residences, business buildings, institutions and industrial establishments.
- Sec. 123. Sewage Works shall mean all publicly owned facilities for collecting, pumping, treating and disposing of sewage.
- Sec. 124. Sewage Treatment Plant shall mean any arrangement of devices and structures used for treating sewage.
- Sec. 125. Sewer shall mean a pipe or conduit for carrying sewage.
- Sec. 126. Side Sewer shall mean the sewer line beginning 3 feet outside the foundation wall of any building and terminating in the main sewer and includes the building sewer and lateral sewer together.
- Sec. 127. Single-Family Unit. A single-family unit is defined to mean and refer to the piece of residence for a single family. Property improved for multi-family purposes shall constitute the number of units that the facilities thereon provide in number of single-family units.
- Sec. 128. Storm Sewer or Storm Drain shall mean a sewer which carries storm and surface or ground water and drainage, but excludes sewage and polluted industrial wastes.
- Sec. 129. Street shall mean any public highway, road, alley, avenue, alley, way, public place, public easement or right-of-way.

ARTICLE II  
GENERAL RULES

Sec. 301. Short Title. This Ordinance shall be known as the SANITARY CODE OF UKIAH VALLEY SANI-

TATION DISTRICT of Mendocino County.

- Sec. 202. Rules and Regulations. The following rules and regulations respecting sewer construction and disposal of sewage and drainage of buildings, and connection of building works of the District are hereby adopted, and all work in respect thereof to be performed shall be herein required and not otherwise.
- Sec. 203. Purpose. This Ordinance is intended to provide rules and regulations for the use and construction of sanitary sewer facilities hereafter installed within the District. This Ordinance shall not apply retroactively and, in the event of any conflict between the herein made, it shall apply only to the new materials and methods used therein.
- Sec. 204. Violation Unlawful. Following the effective date of this Ordinance, it shall be unlawful for any person to connect to, construct, install or provide, maintain or use any other means of sewage disposal from any building in the sewer served by a sewer of said District except by connection to a public sewer in the manner as in this Ordinance provided, except as herein otherwise provided.
- Sec. 205. Protection from Damage. No unauthorized person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, apparatus or equipment which is part of the District sewer works. Any person violating this provision shall be liable to the penalties provided by law.
- Sec. 206. Disposal of Wastes. It shall be unlawful for any person to deposit, or permit to be deposited upon public or private property within the District or in any area under the jurisdiction of said District, any human or animal excrement, garbage or other objectionable waste.
- Sec. 207. Treatment of Wastes Required. It shall be unlawful to discharge to any stream or watercourse any sewage, industrial wastes, or other pollutants, except where suitable treatment has been provided in accordance with provisions of this Ordinance.
- Sec. 208. Unlawful Disposal. Except as herein provided, it shall be unlawful to construct, install, maintain, or use any privy, privy vault, septic tank, cesspool, seepage pit or other facility intended or used for the disposal of sewage.
- Sec. 209. Occupancy Prohibited. No building, industrial facility or other structure shall be occupied until the Owner of the premises has complied with all rules and regulations of District.
- Sec. 210. Sewer Required. The Owner of any building situated within the District requiring sewage disposal and abutting on any street in which there is or shall have been located a public sewer of the District, shall connect said building directly with the public sewer in accordance with the provisions of this Ordinance within ninety (90) days from the date when such connection can be made, provided that said public sewer is within two hundred (200) feet of the building.
- Sec. 211. Relief on Application. When any person by reason of special circumstances, is of the opinion that any provision of this Ordinance is unjust or inequitable as applied to his premises, he may make written application to the Board, stating the special circumstances, citing the provision complained of and requesting suspension or modification of that provision as applied to his premises. If such application is approved, the Board may, by resolution, suspend or modify such provision as applied to such premises, or as applied to such premises during the period of such suspension or modification of such special circumstances, or any part thereof.
- Sec. 212. Powers and Authorities of Inspectors. The officers, inspectors, managers and any duly authorized employees of the District shall carry on their duties as representatives of the District and upon exhibiting the proper credentials and identification shall be permitted to enter and upon any and all buildings, industrial facilities and premises for the purposes of inspection, re-inspection, observation, measurement, sampling, testing or otherwise performing such duties as may be necessary in the enforcement of the provisions of the resolutions, ordinances, rules and regulations of the District.
- Sec. 213. Inspector, Compensation. The Board of Directors shall provide for the employment of some fit and qualified person or persons to perform the duties of inspecting the installation, connection, maintenance and use of all side sewers, public sewers and lateral sewers within the jurisdiction of said District, to be known as the District Inspector. The person so employed shall receive as compensation for his services for making inspections required to be made by the resolutions, ordinances, and orders and regulations from time to time enacted and ordered by the Board, a sum to be fixed by the Board. He shall serve during the pleasure of the Board and may be another official of the District or an employee of the City.
- Sec. 214. Permits and Fees. No public sewer, side sewer, building sewer or other sewerage facility shall be installed, altered or repaired within the District until a permit for the work has been obtained from the District and all fees paid in accordance with the requirements of Article VI of this Ordinance.
- Sec. 215. Separability. If any section, subsection, sentence, clause or phrase of this Ordinance or the application thereof to any person or circumstance is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remainder of this Ordinance or the application of such provision to other persons or circumstances. The Board hereby declares that it would have passed this Ordinance, or any section, subsection, sentence, clause or phrase hereof irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases are declared to be unconstitutional.
- Sec. 216. Title of Ordinance. For the purposes of this Ordinance the office of the City Building Official is hereby established as the office of the District. This designation may be changed by resolution of the Board at any time.

ARTICLE III  
BUILDING SEWERS, LATERAL SEWERS AND CONNECTIONS

- Sec. 302. Permits Required. In accordance with Article VI of this Ordinance, no person shall construct a building sewer, lateral sewer or a connection with any public sewer without first obtaining a written permit from the District and paying all fees and connection charges as required therein.
- Sec. 303. Construction Requirements. Construction of building sewers and lateral sewers shall be in accordance with the requirements of the Code of Mendocino and the City of Ukiah, with the City limits and the requirements of the District. In case of conflict, the more stringent shall apply.
- Sec. 304. Sewer Materials. For the building sewer and/or lateral sewer and approved types of pipe, joints and fitting joints are listed below:  
Pipe—Vitrified Clay (ASTM Spec. C15-4) Pipe Joints—Plastic Ceramuloid, Mechanical Compression, Fitting Joints—Plastic, Ceramuloid, Mechanical Compression  
Pipe—Cast Iron—Class 40 (Boll) (ASA Spec. A0.3), Pipe Joints—Lead Fitting Joints—Lead  
Pipe—Cast Iron—Class 150 (Fed. Spec. W.P. 1) with amendment 3 thereto ASA A1.8  
Pipe Joints—Standard Mechanical, Tytloc Fitting Joints—Standard Mechanical, Lead  
Pipe—Asbestos Cement Building Sewer Pipe Joints—Rim-Joint Field Joints—Rim-Joint  
Pipe—Asbestos Cement Building Sewer Fittings—Rim-Joint Field Joints—Rim-Joint  
Sec. 305. Minimum Size and Slope. The size and slope of the building sewer shall be subject to the approval of the Inspector, but in no event shall the diameter be less than four (4) inches. The slope of such 4-inch pipe shall be not less than one-eighth (1/8) inch per foot.
- Sec. 306. Building Sewer Too Low. In all buildings in which any building sewer is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building sewer shall be lifted by proper means, approved by the Engineer and discharged to the public sewer at the expense of the owner.
- Sec. 307. Building Sewer Requirements. Whenever possible the building sewer shall be brought to the building at an elevation below the basement floor level of the building sewer which is within three (3) feet of any bearing wall which might thereby be weakened. It shall be permitted to extend the depth shall be sufficient to provide protection from frost. The building sewer shall be laid on a grade and in straight alignment insofar as possible. Changes in direction shall be made with proper fitting and provided with cleanouts.
- Sec. 308. Joints and Connections. All excavations required for the installation of a building sewer shall be open trench work unless otherwise approved by the Inspector. Pipe laying and backfill shall be performed in accordance with the specifications of (City Ordinance 19) except that no backfill shall be placed until the work has been inspected and approved for backfill.
- Sec. 309. Separate Sewer. No two adjacent buildings fronting on the same street shall be permitted to join in the use of the same side sewer. Every building or industrial facility shall be separately connected with a public sewer if such public sewer exists in the street upon which the property abuts or in an easement which will serve said property. However, one or more buildings located on one parcel of property belonging to the same owner may be served with the same side sewer during the period of said ownership. Upon the subsequent division and/or sale of a portion thereof, the owner shall be directly connected with such public sewer shall be separately connected with a public sewer and it shall be unlawful for the owner thereof to continue to use or maintain such indirect connection.
- Sec. 310. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, upon examination and test by the Inspector to meet all requirements of District.
- Sec. 311. Cleanouts. Cleanouts in building sewers shall be provided at each property line in addition to those provided for in Section 306 in accordance with the rules, regulations, resolutions and ordinances of the District. All cleanouts shall be maintained watertight.
- Sec. 312. Connection to Public Sewer. The connection of the building sewer into the public sewer shall be made at the lateral or "Y" branch, if such lateral or "Y" branch is available at a suitable location. Where a public sewer to receive the building or lateral sewer, with entry in the downstream direction at an angle of about forty-five degrees (45°). A Wye and die shall be used for the connection and in no case shall the pipe protrude inside the main sewer. The invert of the building or lateral sewer at the point of connection shall be at a higher elevation than the invert of the public sewer. A smooth neat joint shall be made and the connection made secure and watertight by encasement in concrete. The connection to the public sewer shall be made in the presence of the Inspector and under his supervision and direction. Any damage to the public sewer shall be repaired at the cost of the applicant to the satisfaction of the Inspector. All construction made pursuant to this section shall comply with the requirements of Article IV.
- Sec. 313. Protection of Excavation. All excavations for a side sewer installation shall be adequately guarded with barricades or lights so as to protect the public from hazard. Streets, sidewalks, parkways and other property disturbed in the course of the work shall be restored in a manner satisfactory to the District and the County or any other political subdivision having jurisdiction thereover.
- Sec. 314. Maintenance of Side Sewer. Side sewers shall be maintained by the owner of the property served thereby.
- Sec. 315. Testing. All building sewer connections shall be tested in the presence of the Inspector by filling the line with water and inspecting for excessive leakage. Testing plugs, water and labor for testing shall be furnished by the person constructing the sewer. All lines showing excessive leakage shall be repaired or replaced at the expense of the person doing the work and shall be to the direction and to the satisfaction of the Inspector.
- Sec. 316. Indemnification. The owner of the property and the person making the connection shall be obligated to hold the District, its officers, managers and employees, harmless of and from all loss or liability which shall occur

of the installation  
sewer and the opening  
at the building and  
the pavement.

**ARTICLE VI  
PUBLIC SEWER  
CONSTRUCTION**

Permit Required. In ac-  
cordance with this article, no  
person shall construct, ex-  
tend or connect to any public sewer  
line or lateral in the District  
without first obtaining a permit  
from the Engineer, and paying all  
fees and charges and furnish-  
ing all other data required for  
such permit, which shall not be  
granted until all requirements are  
complied with and approved.

Divide a public sewer sys-  
tem into a lot of land which he  
owns or controls, or extends or  
connects to the public sewer  
system of the District shall  
first obtain a permit from the  
Engineer. The application for  
such permit shall contain the  
name of the applicant, the loca-  
tion of the sewer line, and a  
copy of the floor plan or plat  
showing the location and specifi-  
cations for the sewer line to be  
constructed.

Investigation. Upon receipt  
of the application, the Engineer  
shall investigate and inspect the  
proposed subdivision or improve-  
ment and shall report his findings to  
the Board, including a recommendation  
as to the facilities required and  
estimated cost of the proposed  
sewer system therefor.

Subdivisions. Tracts or  
lots of land shall be subdivided  
only upon approval of the En-  
gineer, and shall be in accord-  
ance with the standards and speci-  
fications established by the En-  
gineer. The subdivision plat  
shall show the location and specifi-  
cations of the sewer lines to be  
constructed.

Specifications and Con-  
ditions. The size, type and quality  
of materials and location of the lines  
to be constructed shall be in  
accordance with the standards and  
specifications established by the  
Engineer. The construction shall  
be in accordance with the approved  
plans and specifications.

Adjustment. Adjustments  
of substantial differences between  
the approved and actual con-  
struction shall be made at the  
expense of the contractor. The  
contractor shall be responsible for  
the maintenance of the sewer  
lines until they are accepted.

County Permit. The con-  
struction permit shall not be  
issued until the County Road De-  
partment has issued its con-  
struction permit, and the con-  
struction shall be in accordance  
with the approved plans and  
specifications.

Required Prints. Before a  
construction permit is issued,  
the contractor shall submit to  
the Engineer the following  
prints: (1) A set of blue line  
prints of the approved plans and  
specifications. (2) A set of  
prints for use of the Inspector  
only. (3) A set of prints of the  
approved plans and specifications  
for use of the Engineer.

Construction. The con-  
struction shall be completed  
within the time specified in the  
permit. The contractor shall be  
responsible for the maintenance  
of the sewer lines until they  
are accepted.

Sewer Materials. For public  
sewer construction the following  
materials shall be used: (1)  
Approved Pipe Joints: Plastic,  
unlined, Approved Fitting Joints:  
Cast Iron Class 150 (Std. Spec.)  
with standard gaskets, (2) Approved  
Pipe Joints: Standard Mechan-  
ical, Approved Fitting Joints:  
Standard Mechanical, Standard Me-  
chanical Cement (Std. Spec. 88-P-  
1), Approved Pipe Joints: Ring-  
-Type, Fluid-Tite, Pre-  
-cast, (3) Approved Fitting Joints:  
Rubber, (Ball Rubber or Double Rub-  
-ber), Approved Fitting Joints:  
Rubber (Ball Rubber or Double Rub-  
-ber), Approved Cement (Std. Spec.  
88-P-1), Approved Pipe Joints:  
Ring-Type, Fluid-Tite, Pre-  
-cast, (4) Approved Fitting Joints:  
Rubber (Ball Rubber or Double Rub-  
-ber), Approved Cement (Std. Spec.  
88-P-1), Approved Pipe Joints:  
Ring-Type, Fluid-Tite, Pre-  
-cast, (5) Approved Fitting Joints:  
Rubber (Ball Rubber or Double Rub-  
-ber), Approved Cement (Std. Spec.  
88-P-1), Approved Pipe Joints:  
Ring-Type, Fluid-Tite, Pre-  
-cast.

Pre-treatment. Where pre-  
liminary treatment facilities are  
provided for any public sewer  
system, the owner shall be re-  
sponsible for the maintenance and  
operation of such facilities.

Control Manholes. When  
required by the Engineer, the owner  
of any property shall install  
a suitable control manhole in the  
side sewer to facilitate observa-  
tion, sampling and measurement  
of the sewer. Such manhole shall  
be installed at a convenient place,  
shall be constructed in accord-  
ance with the specifications  
approved by the Engineer, and  
shall be maintained by the owner  
at his expense.

Measurements and Tests. All  
measurements, tests and analyses  
of the sewer system shall be  
made in accordance with the  
methods and standards specified  
in the approved plans and  
specifications.

Persons Authorized to  
Work. Only persons licensed  
by the Board to work on  
public sewers shall be per-  
mitted to do so. The Board  
may, at its discretion, suspend  
the license of any person who  
fails to comply with the re-  
quirements of this article.

Enforcement. Any person  
who violates any provision of  
this article shall be liable to  
a civil penalty of not less than  
\$500 and not more than \$1,000,  
plus costs of enforcement.

Severability. If any provision  
of this article is held to be  
invalid or unenforceable, the  
remaining provisions shall  
continue in full force and  
effect.

The provisions of this section shall  
not be construed to apply to con-  
tractors under contracts awarded  
and awarded under the authority  
of the Board.

Sec. 414. Compliance with Local  
Regulations. Any person construct-  
ing a sewer line shall comply  
with all state, county or city laws,  
resolutions, ordinances, rules and  
regulations pertaining to the  
construction of public sewers,  
paving, opening, barricading,  
lighting and protection of  
trenches, excavations and  
shall obtain all permits and pay  
all fees required by the department  
having jurisdiction.

Sec. 415. Completion of Sewer  
Line. The construction of any  
sewer line by the District and prior  
to the admission of any sewage into  
the system, the sewer line shall be  
complete in full compliance  
with all requirements of the  
specifications and to the satisfaction  
of the Engineer, or his duly author-  
ized representative.

**ARTICLE VII  
USE OF PUBLIC SEWERS**

Sec. 501. Drainage Into Sanitary  
Sewers. Prohibited. No water,  
oil or surface drains for rain  
water shall be connected to any  
sanitary sewer by any device or  
method whatsoever.

Sec. 502. Types of Waste Prohibited.  
Except as hereinafter provided,  
no person shall discharge or cause to  
be discharged any of the follow-  
ing into a public sewer:

- (a) Any liquid or vapor having a  
temperature higher than 180° F.
- (b) Any water or waste which  
may contain more than 100 parts  
per million, by weight, of fat, oil  
or grease.
- (c) Any gasoline, benzine, naphtha,  
fuel oil, or other inflammable or  
explosive liquid or vapor.
- (d) Any garbage that has not been  
shredded to such a degree that all  
particles will not exceed one-half  
inch in any dimension.
- (e) Any ashes, cinders, sand, mud,  
gravel, broken glass, tin cans, metal  
pieces, tar, plastics, wood, punch  
manure, or any other solid or vi-  
scous material which is likely to  
cause obstruction to the flow in  
sewers or to interfere with the prop-  
er operation of the sewerage  
system.
- (f) Any water or waste having a  
pH value less than 5.0 or greater  
than 12.0 or having any other cor-  
rosive property capable of causing  
damage to the sewerage system  
and its appurtenances.
- (g) Any water or waste contain-  
ing a sufficient quantity to injure or  
interfere with any sewage treatment  
process, constitute a hazard to hu-  
mans or animals, or create any  
hazard in the receiving waters of the  
sewerage system.
- (h) Any water or waste contain-  
ing suspended solids of such charac-  
ter and amount that unusual at-  
tention or expense is required to  
handle such materials at the sewerage  
treatment plant.
- (i) Any noxious or malodorous  
gas or vapor capable of creating  
a public nuisance.
- (j) Any septic tank sludge.

Sec. 503. Interceptors. Rules and  
Grense. Oil and sand interceptors  
shall be provided when in the opinion  
of the Engineer they are necessary  
for the proper handling of liquid  
wastes, containing grease or other  
harmful ingredients in excess of  
the quantities specified in the  
approved plans and specifications.

Sec. 504. Maintenance of Intercep-  
tors. All grease, oil and sand intercept-  
ors shall be maintained by the owner  
at his expense, in continuously effi-  
cient operation at all times.

Sec. 505. Preliminary Treatment  
of Wastes. The admission into the public  
sewer of any water or waste hav-  
ing (a) a biochemical oxygen de-  
mand greater than 300 parts  
per million by weight, or (b) contain-  
ing more than 500 parts per million  
of suspended solids, or (c) contain-  
ing any quantity of substance  
having the characteristics specified  
in Section 502, or (d) having an  
average daily flow greater than two  
per cent of the average daily flow  
of the District, shall be subject to  
the review and approval of the  
Engineer. Where necessary in the  
opinion of the Engineer, the owner  
shall, at his expense, such preliminary  
treatment as may be necessary to re-  
duce the biochemical oxygen demand  
to 300 parts per million, and the  
suspended solids to 500 parts per  
million by weight, or (b) reduce objectionable  
characteristics or constituents to  
within the maximum limits provided  
for in Section 502, or (c) control the  
quantity and rate of discharge of  
such water or waste.

Plans, specifications and any  
other pertinent information relating to  
proposed preliminary treatment  
facilities shall be submitted for the  
approval of the Engineer and no  
construction of such facilities shall  
be commenced until all approvals  
are obtained in writing.

Sec. 506. Maintenance of Pre-treatment  
Facilities. Where preliminary  
treatment facilities are provided for  
any public sewer system, they shall  
be maintained continuously in satis-  
factory and effective operation by the  
owner at his expense.

Sec. 507. Control Manholes. When  
required by the Engineer the owner  
of any property shall install a  
suitable control manhole in the  
side sewer to facilitate observa-  
tion, sampling and measurement  
of the sewer. Such manhole shall  
be installed at a convenient place,  
shall be constructed in accordance  
with plans approved by the Engi-  
neer, and shall be maintained by the  
owner at his expense, and shall be  
maintained by him so as to be safe  
and accessible at all times.

Sec. 508. Measurements and Tests. All  
measurements, tests and analyses  
of the sewer system shall be  
made in accordance with the  
methods and standards specified  
in the approved plans and  
specifications.

Persons Authorized to  
Work. Only persons licensed  
by the Board to work on  
public sewers shall be per-  
mitted to do so. The Board  
may, at its discretion, suspend  
the license of any person who  
fails to comply with the re-  
quirements of this article.

Enforcement. Any person  
who violates any provision of  
this article shall be liable to  
a civil penalty of not less than  
\$500 and not more than \$1,000,  
plus costs of enforcement.

Severability. If any provision  
of this article is held to be  
invalid or unenforceable, the  
remaining provisions shall  
continue in full force and  
effect.

downstream manhole in the public  
sewer to the point at which the  
side sewer connects thereto.

Sec. 603. Special Agreements. No  
statement contained in this article  
shall be construed to prevent any  
special agreement or arrangement  
between the District and any industrial  
concern, or any other person,  
of unusual strength or character  
which may be accepted by the District  
for treatment of industrial waste,  
the industrial concern and subject  
to such terms and conditions as  
may be required by the District.

Sec. 610. Swimming Pools. It shall  
be unlawful for any person to  
discharge water into a swimming  
pool into a sanitary sewer except in  
the manner specified herein. The  
size of any swimming pool shall  
not be larger than two inches and  
shall not be under a head to exceed  
two feet. If the water dis-  
charged by pumping, the rate of flow  
shall not exceed one hundred (100)  
gallons per minute. Each swimming  
pool discharging to a sanitary sewer  
shall be equipped with an approved  
backflow preventer or other device  
of a backflow of sewage into the  
swimming pool or piping system.

**ARTICLE VIII  
PROBES AND FEES**

Sec. 601. Permit Required. No un-  
authorized person shall uncover, make  
any excavation or conduct any  
work, alter, or disturb any public sewer  
or appurtenances or perform any  
work on any lateral or building sewer  
without first obtaining a written  
permit from the District.

Sec. 602. Application for Permit.  
Any person lawfully entitled to apply  
for a permit shall apply to the  
District for such permit. He shall  
submit a description of the character  
of the work proposed to be done,  
the location, ownership, occupancy and  
use of the premises in connection  
therewith, and the name and address  
of the person who shall make the  
connection, and the Engineer may require  
plans, specifications or drawings  
and such other information as he may  
deem necessary.

Sec. 603. Agreement. If the Engineer  
determines that the plans, specifications,  
drawings, or other information  
submitted by the applicant are in  
compliance with the resolutions,  
ordinances, rules and regulations  
of the District, a permit shall be  
issued upon payment of the required  
fees therefor.

Sec. 604. Compliance with Permit.  
After approval of the application, au-  
thorized by the issuance of a permit,  
no change shall be made in the loca-  
tion, character, extent or other  
details of the work, or in the  
plans and specifications shown on  
which the permit was issued except  
with the written permission of the  
District, the Engineer or other au-  
thorized representative.

Sec. 605. Agreement. The applicant's  
signature on the application and  
permit shall constitute an agreement  
to comply with all of the provisions,  
resolutions, ordinances, rules and  
regulations of the District, and with  
the plans and specifications shown  
on which the permit was issued, and  
with such corrections or modifications  
as may be made or permitted by the  
District. If any such agreement shall  
be binding upon the applicant and  
he shall be held liable for the  
violation thereof.

Sec. 606. Connection Charges.  
-Annexed Areas. The owner or  
owner of lands within areas hereafter  
annexed to the District shall pay to  
the District, prior to the issuance of  
a permit to connect any portion of  
the property to the public sewer  
system of the District, a fee to be  
determined by resolution of the  
Board. This fee shall be in addition  
to other connection, construction,  
permit and inspection charges.

Sec. 607. Bond - Public Sewer  
Construction. Prior to the issuance of  
a permit for public sewer construction,  
the applicant shall furnish to the  
District a satisfactory performance bond  
or cash in the amount of the total es-  
timated cost of the work. Said bond  
shall be secured by a reliable party  
satisfactory to the District. This cash  
deposit or faithful performance bond  
shall be returned upon the per-  
formance of the terms and conditions  
of the permit and shall guarantee the  
correction of faulty workmanship and  
the replacement of defective materi-  
als for a period of one (1) year after  
the date of acceptance of the work.

Sec. 608. Disposition of Fees. All fees  
collected on behalf of the District  
shall be deposited with the proper  
authorities provided by the District  
to receive such funds.

Sec. 609. All work to be inspected.  
All sewer construction work, building  
sewers, plumbing and drainage sys-  
tems shall be inspected by an Ins-  
pector acting for the District to insure  
compliance with all requirements  
of the District. No sewer shall be  
covered at any point until it has been  
inspected and passed for acceptance.  
No sewer shall be connected to the  
District's public sewer until the work  
covered by the permit has been com-  
pleted, inspected and approved by the  
District Inspector. If the test proves  
unsatisfactory and the sewer has been  
covered, the contractor shall be re-  
sponsible for the removal of the  
cover and the reconstruction of the  
work, at his expense.

Sec. 610. Notification. It shall be  
the duty of the person doing the work  
authorized by the permit to notify the  
District Inspector, in writing,  
that such work is ready for in-  
spection. Such notification shall be  
given not less than twenty-four (24)  
hours before the work is to be in-  
spected. It shall be the duty of the  
person doing the work to make  
sure that the work will stand the  
tests required by the District before  
giving the above notification.

Sec. 611. Condemned Work. When  
any work has been inspected and  
found to be in violation of the  
work and no certification  
of satisfactory completion given,  
a written notice to that effect shall be  
given instructing the owner of the

premises, or the agent of such owner,  
to repair the sewer or other work  
authorized by the permit in ac-  
cordance with the resolutions, ordi-  
nances, rules and regulations of the  
District.

Sec. 612. Owner's Liability for Costs.  
Both the owner and the person mak-  
ing the connection shall be liable to  
the District for all fees, costs and  
expense incident to the installation  
and connection of any sewer or other  
work for which a permit shall be  
issued. The owner shall indemnify the  
District for all claims and damages  
incurred directly or indirectly by occa-  
sion of the work.

Sec. 613. District's Liability. The  
District and its officers, agents and  
employees shall not be liable for any  
person or damage to any property  
caused during or growing out of any  
work authorized by the District. The  
applicant shall be liable for all  
claims and damages incurred by the  
District or its officers, agents and em-  
ployees in connection with the work  
authorized by the District. This pro-  
vision shall not be construed to  
relieve the applicant from liability for  
any defects in the performance of his  
work or for any failure which may  
develop therefrom.

Sec. 614. Outside Sewers. Permission  
shall not be granted to connect any  
lot or parcel of land outside the  
District to any public sewer in or  
under the jurisdiction of the District  
unless a permit therefor is obtained. The  
applicant shall first enter into a con-  
tract with the District, and shall  
bind himself, his heirs, successors and  
assigns to abide by all resolutions,  
ordinances, rules and regulations in  
regard to the manner in which such  
sewer shall be used, the manner of  
connection, the location of the sewer  
and drainage in connection therewith,  
and also shall agree to pay all  
fees and charges for such sewer, and  
a monthly fee in the amount set  
by the District for the privilege of  
using such sewer.

Sec. 615. Permit Optional. The grant-  
ing of such permission for an out-  
side sewer in any event shall be  
optional with the Board.

Sec. 616. Special Outside Agre-  
ments. Where special conditions exist  
relating to an outside sewer, they  
shall be the subject of a special agree-  
ment between the applicant and the  
District.

Sec. 617. Time Limit on Permits. If  
work under a permit is not com-  
menced within six (6) months from  
the date of issuance or if after the  
completion of the work, the permit  
for a period of one (1) year, the per-  
mit shall thereupon become void and  
no further work shall be done until  
a new permit shall have been issued.  
A new fee shall be paid upon the re-  
issuance of said new permit.

**ARTICLE IX  
ENFORCEMENT**

Sec. 701. Violation. Any person found  
to be violating any provision of this  
article or any other resolution, ordi-  
nance, rule or regulation of the District,  
except 306 hereof, shall be served by  
the Manager or other authorized person  
with written notice stating the  
nature of the violation and providing  
a reasonable time limit for the satis-  
factory correction thereof. Said time  
limit shall be not less than two  
weeks and not more than seven working  
days. The person receiving such notice  
shall be held strictly responsible for  
any and all acts of agents or em-  
ployees in connection with the violation  
of this or any other resolution, ordi-  
nance, rule or regulation of the Dis-  
trict, and for any damage caused by  
any of such acts or violations of this  
article or any other resolution, ordi-  
nance, rule or regulation of the Dis-  
trict. The Manager or other authorized  
person shall have the power to disconnect  
such work immediately upon receipt  
of such notice.

Sec. 702. Public Nuisance. Continued  
habitation of any building or contin-  
ued operation of any industrial fac-  
ility in violation of the provisions of  
this or any other ordinance, rule or  
regulation of the District is hereby de-  
clared to be a public nuisance. The  
District may cause proceedings to be  
brought for the abatement of the occu-  
pancy of the building or industrial fac-  
ility during the period of such violation.

Sec. 703. Disconnection. As an alter-  
native method of enforcing the provi-  
sions of this or any other ordinance,  
rule or regulation of the District, the  
District shall have the power to disconnect  
the user or subdivision sewer  
system from the sewer mains of the  
District upon disconnection of the  
Inspector shall estimate the cost of dis-  
connection from an assessment to the  
user, and such user shall deposit  
the cost, as estimated, of disconnection  
and reconnection before such user is  
reconnected to the system. The Dis-  
trict shall refund any part of the  
deposit remaining after payment of all  
costs of disconnection and recon-  
nection.

Sec. 704. Abatement. During the per-  
iod of such disconnection, habitation  
of such premises by human beings  
shall constitute a public nuisance,  
whereupon the District shall cause pro-  
ceedings to be brought for the abate-  
ment of the occupancy of said premises  
by human beings during the per-  
iod of such disconnection. In such  
event, and as a condition of recon-  
nection, there is to be paid to the District  
a reasonable attorney's fee and cost  
of suit arising in said action.

Sec. 705. Means of Enforcement Only.  
The District hereby declares that the  
foregoing procedures are established as a  
means of enforcement of the terms  
and conditions of its ordinances, rules  
and regulations, and not as a pen-  
alty.

**ARTICLE X  
TIMES OF TAKING EFFECT**

Sec. 801. Taking Effect. This ordi-  
nance shall take effect immediately on  
adoption.

**JOS. SCARAMELLA**  
Chairman, Board of Di-  
rectors  
Utkah Valley  
Sanitation District.

Attest:  
/s/ Edith Beck  
Secretary

PASSED AND ADOPTED by the  
Board of Directors of Utkah Valley  
Sanitation District, Utkah Valley  
Sanitation District, California, at a meeting thereof  
held on the 16th day of December,  
1958.

**JOS. SCARAMELLA**  
Chairman of said Board

Attest:  
/s/ Edith Beck  
Secretary
